Road report: Discussed were signs missing or pulled out, brush, and trees. The roads have all been graded. The TRIP project on Elm has been done, but still may need some work on driveways. The Swallow project with the hauling of the granite and working in of the enzyme product has been completed along with 1 mile of Stetson where gravel was used. Dan feels that the granite seems to be better than gravel, but the granite should have been 5/8th. The company with the enzyme product will be supplying the town with free product for Stetson, this means more work. Some residents weren't too pleased with everything and expressed their opinions, this didn't make anyone happy along with the long hours trying to do a good job.
